

Introduction to STEERS e-Permits for Petroleum Storage Tank Registrations

Courtney Yantis, Program Specialist IV

PST & ASVS Registration Team

Benefits to Using e-Permits

- Simplifies the application process.
- Shortens review time.
- Allows for the renewal of delivery certificates for multiple facilities at one time.
- Allows for the addition of financial assurance documentation instead of waiting for the PST Registration Team to enter manually.
- Allows applicant access to update contact, billing, owner & operator information.
- Faster turnaround time for approval.
- Contractors who submit NOCs electronically can immediately access and print the acknowledgement letter.
- Coming Soon - YouTube video featuring How to Submit A Renewal Application in EPermits.

What Can I Submit via STEERS?

- Notices of Construction for new and existing facilities
- Updates to owner/operator information and billing information for existing registrations
- Registration for new tanks for existing facilities
- Renewals/self certifications for multiple facilities at the same time

Creating an Account in STEERS

- Go to www3.tceq.texas.gov/steers/
- Click the link “to create a new account” under the “I need” heading
- If you need assistance or help, please contact STEERS Help Desk 512-239-6925 or steers@tceq.texas.gov.
- You can also go to https://www.youtube.com/watch?v=xfEsj25_2os to view a video on how to setup your STEERS account.

The screenshot shows the STEERS website interface. At the top, there is a header for the Texas Commission on Environmental Quality with a logo and a link to 'Questions or Comments >>'. Below this, a 'TCEQ Home' button is visible. The main content area is divided into two sections. On the left, a yellow box highlights the 'Welcome to STEERS' message, which states 'the State of Texas Environmental Electronic Reporting System.' Below this, a section titled 'Here is what you can do online in STEERS:' lists various services under the heading 'e-Permits\Registration:', including Aggregate Production Operations Registration, Air New Source Review Registrations, CAFO General Permit, Concrete Batch Plants General Permit, Hydrostatic Test Water General Permit, Municipal Solid Waste Notifications, Pesticide General Permit, Petroleum Storage Tank (PST) Registrations, and Stormwater General Permits (Construction & Multi-Sector). On the right, a yellow box highlights the 'Enter STEERS:' section. This section contains two input fields: 'ER Account Number:' and 'Password:', followed by a 'Login' button. Below these fields, a section titled 'I need:' lists three options: 'my password', 'to create a new account', and 'to authorize another user's account'. A red arrow points to the 'to create a new account' option.

Confirmation of Registration Information

- Once you have found the facility, STEERS will display the information for the owner on the registration. Make sure that this information matches the owner you are entering the Notice of Construction for.
- If the owner for the NOC doesn't match, you **must** submit an ownership change either through STEERS or by a paper form (0724 UST/0659 AST) before submitting the Notice of Construction. Do not submit an NOC for the wrong owner.

You have requested to update Registration number **9809**. The information we have on record for this registration is shown below. Review this information carefully. If any item is incorrect, stop here and call Program Area for further assistance..

- To confirm that this is the registration to be updated, click "Confirm registration Information".

Frequently Asked Questions

- **I can't access the application page or my account, what am I doing wrong?**
 - Make sure you are accessing the correct version of STEERS, the old one (***Historical PST Self Certification Renewal (PST)***) will only allow you to read and not edit. Make sure you are in the EPR_PST Petroleum Storage Tank Registrations
- **My account status still shows probationary. How do I fix this?**
 - Submit either the paper SPA or the E-sign SPA to change your account status to active.
- **I filled out the application and it says Ready to Sign, but I do not see the Sign button on my screen?**
 - Only users with the "PST Sign" role under "Program status" can sign and submit the application. You will need to update your access.
- **Will I receive anything confirming that my application was submitted?**
 - You will receive an email confirming your application was submitted. You will also receive an email once the application has been approved or denied due to missing information.
- **How long do applications take to be reviewed and approved?**
 - The approval process takes between 3 - 7 business days. Notice of Constructions do not require review or approval.

Frequently Asked Questions Continued

- **I noticed that the owner information is incorrect for the facility I am trying to submit a Notice of Construction for. How do I fix this?**
 - You will need to or have the owner submit an ownership change application either via STEERS or on the paper form (0724) for USTs and (0695) for ASTs before you can proceed with the Notice of Construction.
- **I don't see where to add my facilities to my account. How do I do that?**
 - The new e-Permits system does not require you to add all the facilities you are responsible for. The self-certification application only requires your owner ID when you start an application in PST e-Permits, which will pull all active sites eligible for renewal.
- **I received an error when trying to create an application for my facility that states that my CN (Customer Number) does not have a valid SOS Filing Number? What do I need to do?**
 - The CN number does not have a valid Secretary of State Tax Filing number. Contact Secretary of State to fix this issue before submitting an application.
