RMAI's Receivables Management Certification Program

Professional Designations for Businesses and Individuals

Earn the **Certified Receivables Compliance Professional (CRCP)** designation by obtaining 24 continuing education credits—like these—in subjects related to the receivables management industry.

Earn the **Certified Receivables Business (CRB)** or **Certified Receivables Vendor (CRV)** by complying with uniform and rigorous industry standards of best practices (including account documentation, consumer complaint and dispute resolution, vendor management, resale, and other operational procedures) and passing a background check.

TESTIMONIAL

Troy Capital was one of the first companies to become certified back in November 2013. From that time, over the next nearly 10 years, the certification program has provided us an always evolving basis to validate and enhance our compliance and best practices related policies and procedures, which in turn, are consistently applied at all levels of the business. That verifiable application consistency has proven to be of great benefit during state level regulatory audits, prospective seller due diligence reviews, automation studies and initiatives, and other key business function assessments.

Rance Willey, Troy Capital
