

Biography: Kendra Houston
Critical Infrastructure Division
Texas Commission on Environmental Quality

Current Position

Kendra is the Section Manager of the Emissions Event Review Section. Her team is responsible for investigating all emissions events reported statewide.

Prior Experience and Education

Kendra received her Bachelors in Geography from Texas A&M and Masters in Resource Management & Conservation from Antioch University New England. She has been with the TCEQ almost 15 years, starting as a Solid Waste Investigator in Beaumont before moving to DFW. In DFW, she was a Solid Waste Investigator, Scrap Tire Coordinator, and Emergency Response Coordinator. In summer 2019, she transferred to the Program Support and Environmental Assistance Division in Austin where she was a Work Leader then a Technical Specialist.
