

# **Sustainability: A Catalyst for Global Innovation**

**Dr. Alexa Dembek**

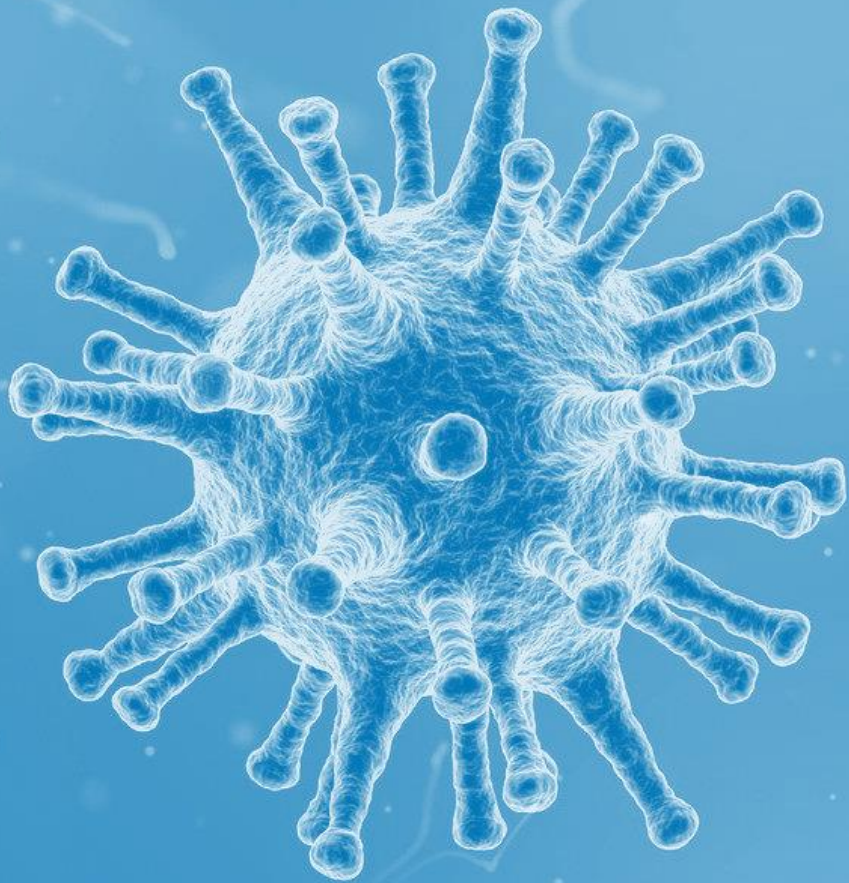

Chief Technology and Sustainability Officer

# Together

A stylized globe with a network overlay. The globe is rendered in shades of blue and green, with a yellow and blue wireframe network structure superimposed on it. The network consists of numerous small dots connected by thin lines, forming a complex, interconnected pattern that covers the entire globe. The background is a dark blue gradient with scattered white dots, suggesting a digital or space-themed environment.

In every dimension of our  
business, we're elevating our  
commitment to deliver

# essential innovations

*that*

- › enrich people's lives
- › enable sustainable development
- › foster human potential  
for generations to come

# The global challenges are clear, now it's time to act

We powerfully  
connect  
innovation to  
sustainability

# We align our portfolio with trends shaping the world

## Market Drivers

**Connectivity and Mobility**

**Healthy Living and  
Active Lifestyles**

**Urbanization and Safety**

## Technology Drivers

**Digital Revolution**

**Biotechnology Acceleration**

**Electronics Convergence**

# We strategically focus on innovation platforms

Valuable societal problems to be solved,  
creating compelling growth platforms

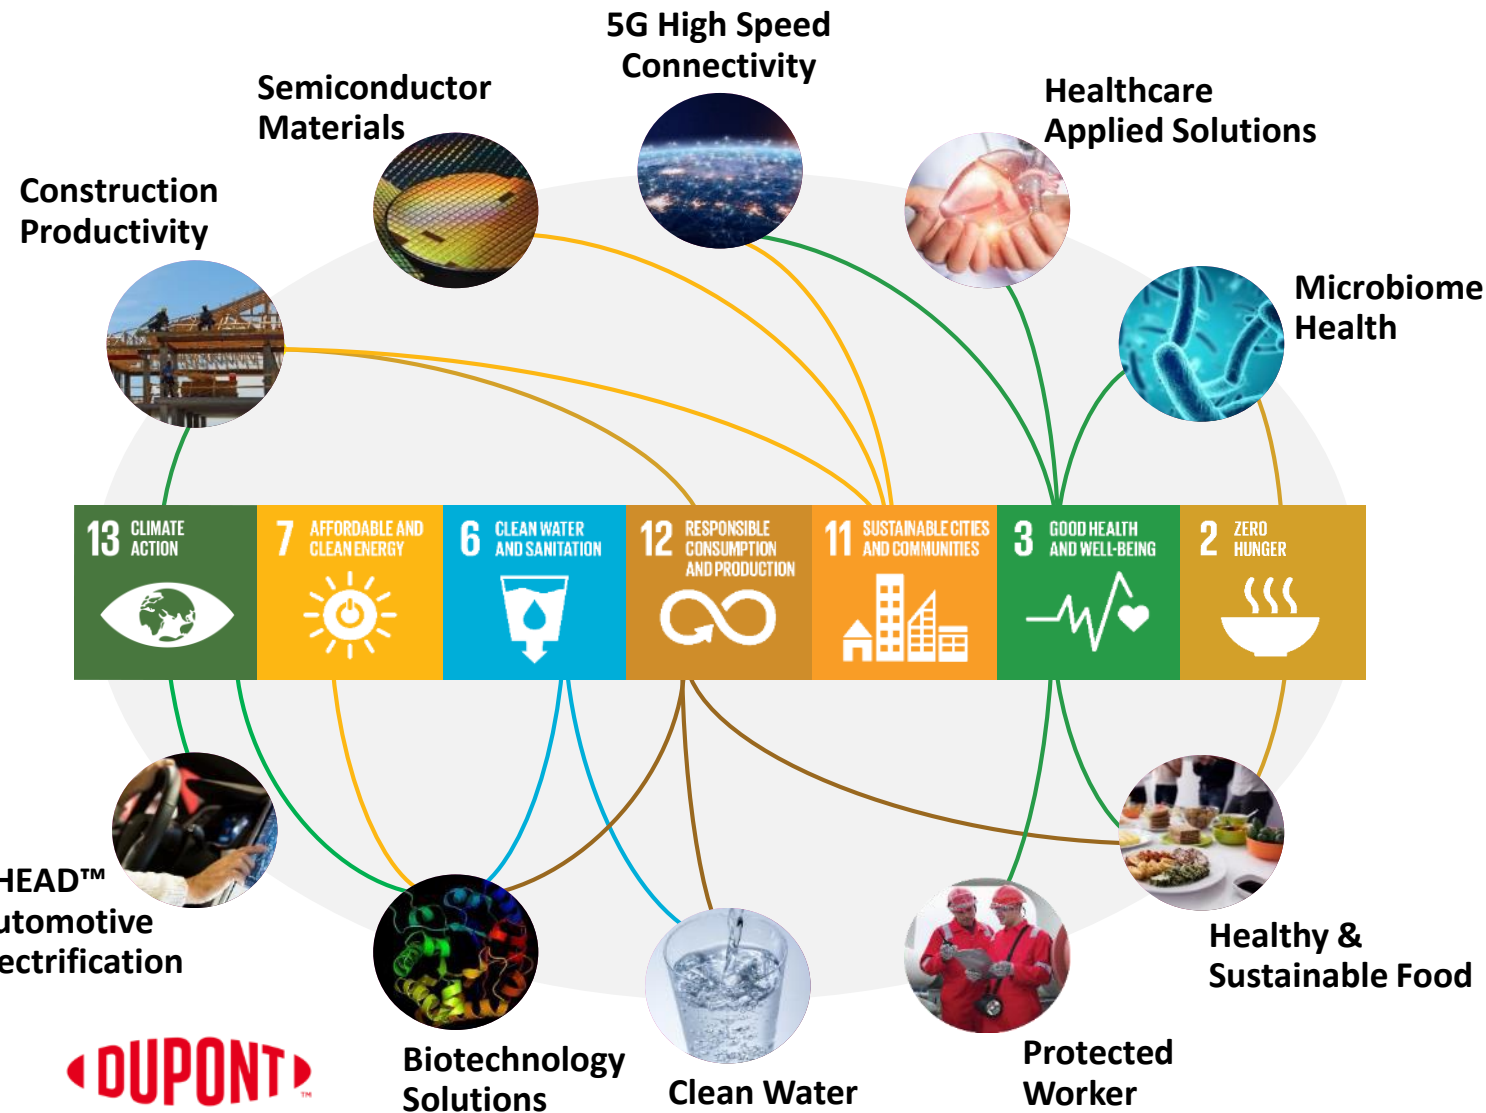

Pursued with urgency and differential  
investment – not business as usual

Well-aligned with **business strategies** and  
**UN Sustainable Development Goals**

Building from today's strong businesses to **create**  
**significant new adjacent growth opportunities**

# Our innovations enable people and societies to thrive

## Strategic Outcomes

**Align innovation strategy with business strategy to drive value**

**Impact change at scale with speed**

**Increase resiliency across value chains**

**11** SUSTAINABLE CITIES  
AND COMMUNITIES

The background of the entire image is a vibrant, high-angle night photograph of a city skyline. In the foreground, a multi-lane highway is captured with long-exposure light trails, showing streaks of orange and yellow light from vehicles. The city's skyscrapers are illuminated with various colors, including blue, green, and white. Overlaid on the city scene is a network of thin, white, glowing arcs that connect various points across the frame, symbolizing high-speed connectivity and data flow.

Goals for  
global challenges

# Our 2030 Goals: strategic, ambitious and value creating

## innovate now

Create sustainable innovations to help society thrive and address its most pressing challenges

## protect now

Operate sustainably by delivering world-class, end-to-end performance in safety, resource efficiency and environmental protection

## empower now

Enable the health and well-being of people and communities and advance diversity and inclusion

# Innovation and science are part of the solution

innovate **now**

protect **now**

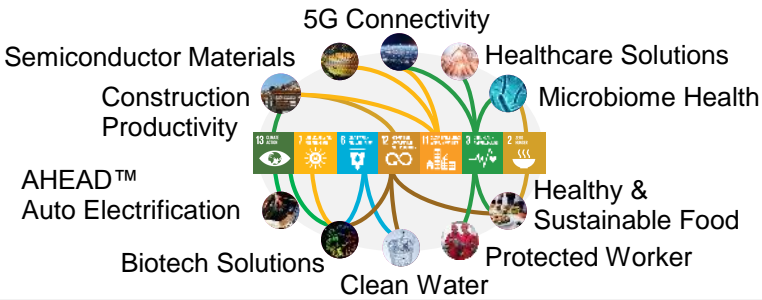

empower **now**

## 2030 Goals

**Delivering solutions for global challenges**

**Align 100% of the DuPont innovation portfolio** to meaningfully advance the **UN SDGs** and create value for our customers

**Enabling a circular economy**

**Integrate circular economy principles** into our business models considering lifecycle impacts in the markets we serve

*Example*  
**DuPont's Second Life Materials** works with customers to create new uses for waste streams and end-of-life products, contributing to a circular economy

**Innovating safer by design**

**Design 100% of our products and processes** using sustainability criteria including the principles of green chemistry

*Example*  
**BLUEDGE™ Polymeric Flame Retardant Technology** provides a next-generation, sustainable flame retardant solution for polystyrene foam, designed with health and safety in mind

# We are committed to making an impact

innovate **now**

## Delivering solutions for global challenges

Align 100% of the DuPont innovation portfolio to meaningfully advance the UN SDGs and create value for our customers

protect **now**

## Acting on climate

Reduce Green House Gas (GHGs) emissions 30% including sourcing 60% of electricity from renewable energy

Deliver carbon neutral operations by 2050

empower **now**

## Accelerating diversity & inclusion

Become one of the world's most inclusive companies, with diversity well ahead of industry benchmarks

## Enabling a circular economy

Integrate circular economy principles into our business models considering lifecycle impacts in the markets we serve

## Leading water stewardship

Implement holistic water strategies across all facilities prioritizing manufacturing plants and communities in high-risk watersheds

Enable millions of people access to clean water through leadership in advancing water technology and enacting strategic partnerships

## Cultivating well-being & fulfillment

Create a workplace where employees report high levels of well-being and fulfillment

## Innovating safer by design

Design 100% of our products and processes using sustainability criteria including the principles of green chemistry

## Delivering world-class EHS

Further our commitment to zero: injuries, occupational illnesses, incidents, waste and emissions

## Building thriving communities

Improve over 100 million lives through targeted social impact programs

**What are the next  
essential innovations?**

**Together, we can  
create real world  
answers that help  
humanity thrive**
