- Quick Closeout
- Contract Closeout Process
 - Pursuant to FAR 4.804-5
- Best Practices

Overview

- Physical completion of a contract triggers contract closeout activities
- Timely and efficient contract closeout can:
 - Save money
 - Receive final payment and minimize strain on cash flow
 - Reduce administrative costs associated with maintaining books and records
 - Save time
 - Reduce time looking for documents needed
 - Save resources
 - Utilize people who have worked on the contract (e.g., program managers, contract administrators and other accounting staff) to perform closeout actions shortly after completion

Current Environment

 Defense Contract Audit Agency (DCAA) backlog of incurred cost audits

- DCAA under pressure to improve audit quality and conduct audits faster
- Statute of Limitations: Contracting Officer (CO) shall issue a written decision on any Government claim against a Contractor within six years after the accrual of the claim. (FAR 33.206)
 - Applies to contracts awarded after October 1, 1995
- Canceling funds: funds that are no longer available for anything, including paying the bills

Government Recovery Actions (DCAA)

- DCAA continued a risk-based incurred cost audit initiative based on a set of revised criteria

 - DCAA closed out 6,786 incurred cost years in FY2017
 - Year-end balance of 2,860 in incurred cost submissions
 - 1,817 less than prior year-end balance
- Dollar threshold that triggers an automatic audit (i.e., high-risk) raised from \$15 million to \$250 million
- Audits below \$250 million will be assessed for risk
- Low-risk proposals are selected for audit using sampling techniques

Government Recovery Actions (DCAA)

High-Risk ICP Criteria	Low-Risk ICP Criteria
ICPs greater than \$250 million auditable dollar value (ADV)	 <\$1M ADV: Questioned cost is =< 10% of the last completed incurred cost audit's ADV \$1M-\$5M ADV: Questioned cost is =< 5% of the last completed incurred cost audit's ADV or \$100K, whichever is greater \$5M-\$250M ADV: Question cost is <\$250k in the last completed incurred cost audit
 New Contractors with no incurred cost audit experience 	DCAA has performed at least one incurred cost audit on the Contractor
Significant risk or audit leads identified	 No major fraud considerations or other specific relevant risks identified
Unacceptable pre-award or system deficiency	 Completed pre-award accounting system and lack of significant deficiencies for other system reviews
Significant questioned costs in prior year audit	DCAA did not question a "significant total exception" amount

Government Recovery Actions (DCMA)

- Defense Contract Management Agency (DCMA) issued.
 Quick Closeout Class Deviation authorizing Administrative Contracting Officers (ACO) to close contracts prior to the establishment of indirect cost rates (regardless of dollar value or the percent of unsettled direct costs and indirect costs allocable to the contract)
- Contractor must have submitted final certified indirect rate cost proposal or ACO received Low-Risk Adequacy Memorandum from DCAA
- Applies to Cost-Reimbursement, Fixed-Price Incentive or Redeterminable and Time-and-Materials (T&M) contracts
- Deviation effective through September 30, 2017 (extension not yet published)

Government Recovery Actions (DCMA)

- Quick Closeout Class Deviation is subject to the following restrictions:
 - ACOs must use DCAA recommended rates or other rates mutually agreed to by the ACO and Contractor
 - ACO may waive the audit requirement when compelling reasons exist (decision is made by cognizant ACO and DCAA)
 - ACOs must ensure closeout does not impact the Government's negotiation flexibility on remaining unsettled contracts
 - Indirect cost rates under this deviation cannot be considered when establishing the final indirect cost rates for other contracts

Contractor Requirements

- The "Allowable Cost and Payment" clause, FAR 52.216-7(d) requirements include:
 - Prepare and submit ICP within six months following end of each fiscal year
 - True up all interim vouchers within 60 days after rates are settled
 - Close subcontracts before closing the prime contract (i.e., subcontractors submit ICP for final rates, parties negotiate, and prime pays subcontractor's final voucher)
 - Prepare final voucher within 120 days after rates are settled, including subcontractor rates

Closeout Process Overview

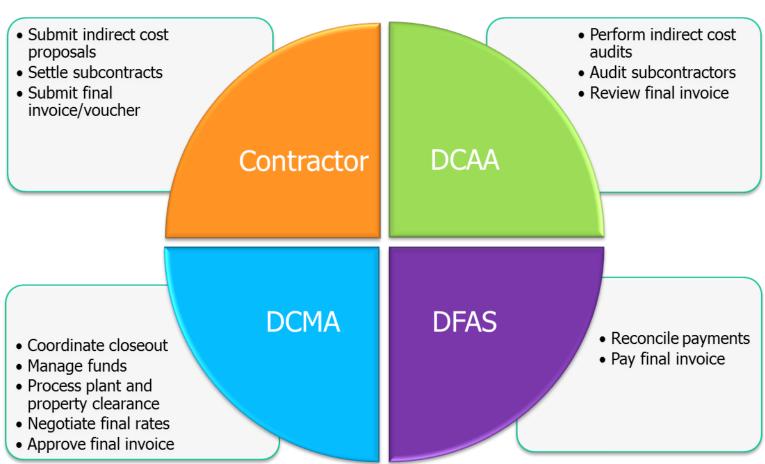

- Contract closeout is the process to finish or resolve all contractual requirements on a physically complete contract
 - Performance completion
 - Financial completion
 - Administrative completion
- Objective: Establish final price and make final payment

Roles and Responsibilities

Physically Complete Contracts

- FAR 4.804-4 defines a physically complete contract as when:
 - The Contractor has completed the required deliveries and the Government has inspected and accepted the supplies
 - The Contractor has performed all services and the Government has accepted these services
 - All option provisions, if any, have expired, or the Government has given the Contractor notice of contract termination

Standard Timing for Closeout

BAKER TILLY

 FAR 4.804-1(a) states after receipt evidence of physical completion, the following time standards are in place for the Government to close out contract files:

Contract Type	Government Standard for Closing Out Contract Files
All other firm-fixed-price contracts	6 months
Flexibly priced contracts (e.g. Cost Reimbursement, T&M, and Labor Hour contracts)	36 months
All other contracts types (i.e., fixed price redetermination, fixed price with economic price adjustment, basic ordering agreement/blanket purchase agreement)	20 months

Schedule O

- Contract Closing Information
 - Identifies cost type, T&M, flexibly priced, and level of effort type contracts that will be closed after this current incurred cost submission is audited and the final indirect rates are agreed upon
 - Includes the following information, broken out by contract type:
 - Contract Number
 - Period of Performance
 - Overall ceiling amount
 - Contract fee
 - Fee computation (if level of effort or flexibly priced)

Schedule O

XYZ CORPORATION ANYWHERE, USA SCHEDULE O

SCHEDULE OF CONTRACT CLOSING INFORMATION FOR THOSE CONTRACTS FOR WHICH WORK EFFORT WAS COMPLETED DURING FISCAL YEAR ENDED 3/31/2009

TRACT N	Order No.	Performa	nce Period	Ready To	Contract Ceiling	Contract	Level of Cumulativ	Notes	
NO.		From	То	Close (1)	Amount (2)	Fee (3)	Required	Actual	
Cost Type:									
Subcontract -Clark Inc.		2/16/05	2/28/09	Yes	\$1,000,000	\$60,000	15,000	14,558	
N00060-06- C-0913		10/16/06	12/28/08	Yes	\$1,750,000	\$112,000	27,500	28,950	
Time & Material:									
N00022-06- D-0111	0001	7/1/06	12/31/08	Yes	\$25,000				

Explanatory Notes:

- (1) Indicate whether the contract is ready to close based on all information available. If the contract is not ready to close (e.g. a contract modification is being pursued, waiting for subcontract final billing), the reasons why should be stated in a footnote.
- (2) Provide the overall contract ceiling amount, before fee, for the type of contract.
- (3) Provide fee amount as provided by the contract. Include details of the fee computation for all flexibly priced incentive fee and level of effort type contracts, along with the contract modification used, in a footnote.

Schedule I

- Schedule of cumulative direct and indirect costs claimed and billed from inception to date.
- All cost reimbursement and T&M contracts are broken out by line item
- Current year claimed costs are pulled from Schedule H
 (direct costs by contract) and Schedule K (summary of
 amounts on T&M contracts) and added to prior year
 claimed/settled costs
- Billed costs are determined from the final invoice of the Contractor's fiscal year
- Goal is to calculate the total over or (under) billing on each contract

Schedule I

XYZCORPORATION ANYWHERE, USA

SCHEDULE OF CUMULATIVE DIRECT AND INDIRECT COSTS CLAIMED AND BILLED COST BY CONTRACT AND SUBCONTRACT FISCAL YEAR ENDED (FYE) 3/31/2009

TOTAL							\$6,572,901		\$6,572,901			\$6,557,344	(\$15,558)	

Cumulative Allowable Costs Worksheet (CACWS)

- CACWS is a summary schedule of cumulative allowable costs for each open flexibly priced contract through the last Contractor fiscal years where the indirect costs rates have been settled
- CACWS may contain sufficient detail for ACOs to close contracts without individual contract audit closing statements
- Can be prepared as part of the incurred cost submission (e.g., Schedule I of ICP)
- Once DCAA has verified, Contractors no longer have to provide the level of cost/rate detail on the SF1035 when submitting final vouchers for closeout
- Could reduce resources necessary to close out a contract

Cumulative Allowable Costs Worksheet (CACWS)

NOTES.

(1) FAR 42.709 implements 10 U.S.C. 2324(a) - (d) and 41 U.S.C. 4303, which requires that penalties be assessed if a contractor claims an expressly unallowable cost in an indirect cost settlement proposal on covered contracts. Covered contracts include all cost type and fixed-price-incentive contracts in excess of [Insert relevant threshold information based on contract award dates in the contractor's proposal as follows: \$500,000 issued on or after October 1, 1995 and before January 19, 2005; in excess of \$550,000 issued on or after January 19, 2005 and before September 28, 2006; in excess of \$650,000 for contracts issued after September 28, 2006 and before October 1, 2010; and in excess of \$700,000 for contracts issued on or after October 1, 2010.]

(2) These costs, by contract, are computed using the negotiation or rate agreement document. Some fiscal years [Insert Fiscal Years] were dispositioned based on the Defense Procurement and Acquisition Policy Class Deviation— DCAA Policy and Procedure for Sampling Low-Risk Incurred Cost Proposals (No. 2012-00013) dated July 24, 2012, and as a result were not audited. Direct costs are

subject to adjustment until final payment.

(3) Contract limitations include costs incurred that are (i) in excess of contract ceiling rates, (ii) unallowable per contract terms, (iii) outside the period of performance, or (iv) in excess of contract ceiling amounts that are not already excluded, for contracts identified as

(4) The cumulative allowable amounts in this column are not-to-exceed contract ceiling amounts and are subject to the resolution of

subcontract assist audits identified in Note 5.
(5) Costs in this column are considered unresolved pending subcontract completion and receipt of final cumulative allowable

subcontract costs. See Section II for details of subcontracts included in this amount.

(6) Subcontract under Prime Contract No. DASW01-94-D-0038 awarded to XYZ Company.

(7) Costs in these columns represent the subcontract costs claimed as shown in Schedule J (or equivalent) of the prime contractor's incurred cost submissions for each fiscal year.

(8) Costs in this column represent the cumulative costs from the subcontract assist audits through the date shown. The amounts in this column and the Total claimed costs column are expected to be different due to timing differences in the prime versus subcontractor billing cycles or submissions of rate adjustment vouchers, subcontract fee or withholds, or different fiscal year end dates. At the completion of the subcontract closing actions, these two amounts should be the same.

Cumulative Payment History

- Accurate cumulative billing information is essential to determine over/under billing for CACWS and Final Invoices
- Contractor records of cumulative payments received should be compared to government payment office disbursement histories

Quick Closeout

- Quick closeout offers an alternative to holding contracts open until indirect cost rates are settled
- Quick closeout is a powerful tool to close the last FY of a multi-year contract
- ACOs should utilize quick closeout when there will be a delay in the settlement of final indirect rates and when it is applicable
- Frequently current billing rates are used as the quick closeout rates
- DCMA Quick Closeout Class Deviation authorizes ACOs to close contracts prior to the establishment of indirect cost rates

Quick Closeout (cont'd)

- FAR 42.708 states quick closeout procedures may be used if:
 - The contract is physically complete
 - The amount of unsettled indirect cost to be allocated to the contract is relatively insignificant
 - The total unsettled indirect cost to be allocated to any one contract does not exceed \$1,000,000.
 - The cumulative unsettled indirect cost to be allocated to one or more contracts in a single fiscal year do not exceed 15% of the estimated total unsettled indirect costs allocable to cost-type contracts for that fiscal year.
 - The contracting officer may waive the 15% restriction based upon risk assessment that considers Contractor's accounting, estimating and purchasing systems; other concerns of the cognizant contract auditors, and any other pertinent information.
 - Agreement can be reached on a reasonable estimate of allocable dollars

Contract Closeout Process

- BAKER TILLY
- Once all contract terms and conditions are met, actual closeout can begin
- Action items to complete during the administrative closeout process are outlined within:
 - 1. FAR 4.804-5 Procedures for closing out contract files
 - 2. DD Form 1597 Contract Closeout Check-List
 - a. DD Form 1597 is not required on firm fixed price contracts and firm fixed price contracts with special closeout requirements

c. SIGNATURE (Sign only upon completion of all actions) d. DATE SIGNED (YYYYMMDD)	c. SIGNATURE (Sign only upon completion of all actions)				d. DATE SIGNED (YYYY	MMDD)					

- ✓ Disposition of classified material completed
 - All classified documents must be dispositioned in accordance with Government security regulations and accounted for by the Contractor
 - DD Form 254, DoD Contact Security Classification Specification (also for subcontractors)
- ✓ Final patent report submitted and cleared
 - If contract contains patents right clause FAR 52.227-11 or 13, a final patent report must be submitted within 3 months after physical completion
 - DD Form 882, Report of Inventions and Subcontracts

- √ Final royalty report submitted and cleared
 - If the contract contains a refund of royalties clause, FAR 52.227-9, a final royalty report must be submitted by the Contractor stating the royalties paid or required to be paid. Must be submitted before final contract payment
- ✓ No outstanding value engineering change proposal (VECP)
 - If the contract contains the value engineering clause,
 FAR 52.248-1, then verify no outstanding VECPs require payment or disposition

- ✓ Plant clearance report received
 - DD 1593, Contract Administration Completion Record, or other
- ✓ Property clearance received
 - Government property provided to the Contractor and not consumed must be dispositioned at the end of the contract
 - DD 1593, Contract Administration Completion Record, or other
- ✓ Settlement of all interim or disallowed costs
 - DCAA Form 1, Notice of Contract Costs Suspended and/or Disapproved
- ✓ Price revision completed

- ✓ Settlement of subcontracts by the prime Contractor.
 - All of the prime's subcontracts must be paid and closed prior to prime contract closeout completion
- ✓ Prior year overhead rates completed
 - FAR 52.216-7 requires the contract to submit a final indirect cost proposal within 180 days of the close of its fiscal year. All applicable indirect costs and overhead rates must be negotiated or established prior to submitting a final voucher

✓ Termination docket completed

- All open actions and liabilities must be resolved. The government may terminate a contract for default or convenience at any time
- DD 1593, Contract Administration Completion Record, or other
- ✓ Contract audit is completed
 - DCAA performs an audit to determine if Contractor cost are reasonable, allocable to the contracts in accordance with GAAP, CAS, Government statute or FAR Part 31
 - Based on the DCAA audit report, the ACO negotiates the final overhead rates for the Contractors

- ✓ Contractor's closing statement completed
- ✓ Final voucher submitted
 - Contractor submit a completion invoice or voucher (SF 1034) for final payment within 120 days.
 - Final voucher reflects the settled amounts and rates.
 - FAR 42.705 states the right of the CO to unilaterally determine the final contract payment when the contract does not submit within the time specified in the contract.
 - "Contract completion package" also includes the release of clams, which is a signed record from the Contractor stating the Government is released from all liabilities, demands, obligations, and claims on the contract.

- ✓ Final paid voucher received
 - DCAA audits final voucher (if Contractor does not submit CACWS)
 - ACO approves final voucher
 - DFAS issues final payment
- ✓ Final removal of excess funds recommended
 - Any excess funds will be removed from the contract by a PCO/ACO issued contract modification
 - ACO reconciles contract obligation and payment records

Best Practices

- Maintain complete and accurate payment history
 - Compare to government payment office records for final invoice preparation
- Timely submission of all Contractor requirements:
 - Submit ICP six months after fiscal year end
 - True up all interim vouchers 60 days after rates are settled
 - Close all subcontracts early
 - Once overhead rates are settled, prepare final voucher within 120 days
- Identify any contracts that may be qualified for Quick Closeout
- Utilize available Government guidance:
 - DCMA Contract Closeout Checklist
 - DCAA CACWS
 - DCMA Contract Closeout Guidebook
 - DFAS Payment History Data
