

**Biography: Jesse Gress-Alamilla**  
Stormwater Team  
Water Quality Division  
Texas Commission on Environmental Quality

***Current Position***

Jesse Gress-Alamilla has been with the TCEQ Stormwater Team since June 2022. As a permit writer, his duties include conducting technical reviews of municipal stormwater management programs and data collection of Best Management Practices. In addition, Jesse provides technical guidance to stormwater permittees on industrial, construction, and municipal program requirements for individual and general stormwater discharge permits under the Texas Pollutant Discharge Elimination System (TPDES).

***Education and Prior Experience***

Jesse earned his Bachelor of Science degree in Environmental Geoscience from Texas A&M University in 2021. In addition to his studies, he was involved in a 2018 study which prepared and analyzed core samples from the Deep Sea Discovery Program and Ocean Drilling Program to find trends in correlation to Ocean Anoxic Event utilizing X-ray fluorescent readings. Prior to working at TCEQ, Jesse served an AmeriCorps term in an effort to assist low-income, first-generation, and underrepresented high school students enter and complete a higher education.
