Theories in Adult Learning 1

Theories in Adult Learning

War	ming Up:
•	Describe the perfect teaching/learning environment. What does the instructor do? What do the learners do?
•	What resources are available?
Crea	ating a Learning Environment:
•	Write three questions you would like to practice using that would contribute to a learning environment.
Criti	cal v. Creative Thinking:
•	Where do your learners demonstrate critical thinking?
	Where do your rearriers demonstrate or treat dimining.
•	Where do they demonstrate creative thinking?

Theories in Adult Learning 2

•	Where can you encourage your learners to think more independently?						
Expe	riential Learning:						
•	Think of a task that would be appropriate for experiential learning. How can you incorporate "I do, we do, you do, teach"?						
Tran	sformational Learning:						
	Think of a problem that would be appropriate for transformational learning. How would you introduce the problem? How would you work with your learners to solve it?						
Evalu	uating Effectiveness:						
	What ideas do you have to measure behavior and results?						
•	What data could you collect? What questions could you ask?						

Theories in Adult Learning

Application:

What is o	one idea you could a	apply to your teac	hing/instructio	nal practice tod	ay?
