

AI FOR LEGAL WRITERS: THE GOOD, THE BAD, AND THE UGLY

Brought to you by the American Inns of Court and Scribes

PROGRAM OVERVIEW AND EDUCATIONAL RELEVANCE

Artificial intelligence is an amazing tool that all lawyers can use to increase their efficiency and productivity. However, without continuous oversight and diligent review, it can also land even the most experienced attorneys (and even judges!) in hot water. This program will provide tips for ensuring this tool will help and not hurt your cases, your clients and your reputation.

You'll gain a better understanding of:

- The good things that AI can do for attorneys.
- How the nature of AI is inherently problematic without critical thinking.
- Strategies for vigorous oversight.
- Tactics for maintaining your expertise.
- Professional rules and obligations which govern the use of AI.

PRESENTER

Christina Crozier is a Clinical Assistant Professor at the [University of Houston Law Center](#). She teaches Lawyering Skills and Strategies, a course which imparts the fundamentals of legal writing to first-year students.

Professor Crozier has been a member of [Haynes Boone's](#) appellate practice group for nearly two decades, and she continues to lend her expertise to the firm. She is a seasoned legal writer and oral advocate, having argued appeals in the Fifth Circuit, the Texas Supreme Court, and numerous Texas courts of appeals. She is board certified in civil appellate law by the Texas Board of Legal Specialization and has been repeatedly recognized by Texas Super Lawyers and Best Lawyers in America in the area of appeals.

In addition to her work at the UH Law Center and Haynes Boone, Professor Crozier regularly teaches continuing legal education courses to lawyers and judges on topics such as error preservation, the jury charge, and the impact of artificial intelligence on legal writing. She is a past chair of the Houston Bar Association Appellate Section and a fellow of the Texas Bar Foundation and Houston Bar Foundation.

CONTINUING LEGAL EDUCATION

This program is designed to be eligible for *1 CLE hour of CLE credit* in most jurisdictions.
