

## **Carol Bao**

Waste Permits Division  
Texas Commission on Environmental Quality

### ***Current Position***

Project Manager for the Industrial and Hazardous Waste Permits Section, Waste Permits Division

### ***Prior Experience and Education***

Carol Bao received her Bachelor of Science degree in Chemical Engineering from the Texas Tech University at Lubbock in May 2018. After graduation, Carol immediately joined the Industrial and Hazardous Waste Permits Section as Environmental Permit Specialist. Her responsibilities include:

- Conducts technical reviews and evaluations of applications, including Permit Modifications, 335.6 Notifications, Combustion Performance Test plans and reports, and Waste Management reports
- Determines compliance with applicable Resource Conservation and Recovery Act (RCRA) Regulations, Maximum Achievable Control Technology (MACT) 40 Code of Federal Regulation (CFR) Part 63, Subpart EEE, and 30 Texas Administrative Code (TAC) 305 & 335
- Assists customers on the waste permits program through verbal communication, correspondence, data reports, presentations, and responses to Public Information Requests
- Participates in special projects including maintenance and improvement of standard operating procedures (SOPs), Permit Writer conference calls, and Employee Recognition Programs (ERP)
