

Biography: Dante Fekete

Stormwater Team
Water Quality Division
Texas Commission on Environmental Quality

Current Position

Dante Fekete has been with the TCEQ Stormwater Team since September 2019. As a permit writer, his duties include conducting technical reviews of municipal stormwater management programs and annual reports as well as drafting individual stormwater discharge permits under the Texas Pollutant Discharge Elimination System (TPDES). In addition, Dante provides technical guidance to stormwater permittees on industrial, construction, and municipal program requirements for individual and general stormwater TPDES permits. He currently is the project manager for the 2024 John Graves Scenic Riverway General Permit renewal.

Education and Prior Experience

Dante earned his Bachelor of Science degree in Environmental Science and Technology from the University of Maryland - College Park in 2019. In addition to his studies, he was involved in a one-year research project to support the poultry industry's composting efforts along the Eastern Shore of the Chesapeake Bay. He also worked within the pork production industry of the commercial agriculture sector where he gained experience in nutrient management for Concentrated Animal Feeding Operations.
