

Enrichment Engagement Scoring

- Groups: observe the group while the enrichment is applied, and assess which of the 1 to 5 Interest scores is applicable to most animals
- Individual: assess each individual while enrichment is present, or for a predetermined time sample, to give a 1 to 5 Interest score

1	2	3	4	5
Flee or avoid	No Interest	Brief interest	Sustained interest	Highly engaged
<i>Fear response or avoidance of EED</i>	<i>No interest in EED, but may look/approach initially before leaving. No fear or avoidance</i>	<i>Interested in and/or interacted with EED for a short time, but didn't stay long with it</i>	<i>Interested in EED for most of session, but also engaged in other behaviours</i>	<i>High and sustained interest in EED for all, or nearly all, of session</i>
