Transform Policing with Analytics and Evidence-Based Practices
November 10, 2021 - 10:00 am PT

Evidence-Based Policing allows for the use of research findings to develop those strategies that are best designed to reduce crime and disorder while maintaining the trust and confidence of the public we serve. By using intelligence gained from analytically driven approaches, the Policing profession can begin to incorporate those research findings into every decision that is made. It is important to know what works so that data can be fed into improving the outcomes for more timely and accurate decisioning. This practice will allow command staff and agents to continue the important mission in the most effective way. As importantly, you can examine actions of staff to identify those strategies that have been proven ineffective by research to ensure that you are being the best public stewards possible. Providers of CJIS Integration & More

CommSys, Inc., a nationwide CJIS access provider, is an expert in California state communications, providing direct, reliable CLETS access from full terminal solutions to integrated query access for CAD and RMS systems. CommSys also provides solutions for self-monitored alarm integration to CAD systems, eliminating islands of notifications.

Learn what CommSys solutions can do for your agency at www.commsys.com

Automate Investigative Leads with a Camera that Sees Like a Detective

Flock Safety's Falcon is an affordable, infrastructure-free Automatic License Plate Recognition camera for law enforcement agencies who want to increase case clearance and eliminate crime. Unlike traditional ALPRs, the Falcon uses Vehicle Fingerprint™ technology to transform hours of footage into actionable evidence, even when a license plate isn't visible.

Truleo Launches First Body Camera Audio Analytics Platform for Law Enforcement

Truleo, the leading provider of body camera audio analysis technology for law enforcement, has announced the launch of its audio intelligence and analysis platform. Law enforcement continues to struggle to keep up with [the overwhelming volume of data generated](#) by police body-worn cameras and less than 0.1% of footage is actually analyzed. Truleo's body camera audio analytics platform converts data into actionable insights, using natural language processing (NLP) to categorize incidents captured by body cameras. This technology bridges the gap between the public and law enforcement, providing unprecedented insight into all, including controversial, law enforcement interactions. Truleo has developed a truly groundbreaking way for departments to effectively evaluate officer and community interactions to help build trust between law enforcement agencies and the communities they serve. Check out [Marketwatch](#). Contact - **Nikhit Bhatia** at nikhit@truleo.co.

Funding Your Agency's Wellness App

High-risk personnel endure the effects of constant stress and exposure to critical incidents, and trusted resources are difficult to find. Cordico provides customized apps for public safety professionals. Funding shouldn't be a barrier to getting help. Below are strategies for securing the funds needed to bring Cordico to your agency. National Testing Network - Turn Your Hiring Process Equitable, Effective, and Efficient

National Testing Network (NTN) is continuously improving and widening our recruiting methods to find and engage diverse candidates across the country. This includes connecting with special interest groups, multicultural, professional associations, student groups online, engaging with specialized job boards, and recruiting within veteran populations. Currently, NTN has over 85,000 tested candidates in their database for agencies on the NTN network. Within CA, NTN supports over 40 agencies for police hiring with strategically located testing sites throughout the state and unlimited live proctored candidate test administration via our online platform. Visit nationaltestingnetwork.com or contact Tony Percich, Vice President NTN - tonyp@ergometrics.org

Governor Signs SB 2, Creating Police Decertification Process and Expanding Civil Liability Exposure

LCW Special Bulletin - On September 30, 2021, Governor Gavin Newsom signed into law Senate Bill 2 (“SB 2”), a bill that will significantly affect law enforcement agencies across the state. The bill’s stated intent is to increase accountability for misconduct by peace officers and makes five significant changes (outlined in further detail at [Governor Signs SB 2 - Liebert Cassidy Whitmore](#)):

It will create a process for the Commission on Peace Officer Standards and Training (“POST”) to revoke certifications for peace officers such that those individuals will be disqualified from peace officer employment in California;

It expands the list of circumstances that will disqualify a person from employment as a peace officer;

It will require law enforcement agencies to investigate all complaints or claims of serious misconduct by peace officers regardless of whether the subject officer(s) is still employed by the agency;

It will require law enforcement agencies to report to POST all complaints, claims, allegations, and findings of serious misconduct;

It will remove some immunity provisions for peace officers and their employing agencies in civil rights lawsuits brought under the Tom Bane Civil Rights Act.
