.....

COMPASSION | HOPE | HELP

Roland Warren, President & CEO of Care Net

Sandy Christiansen, MD, FACOG, Care Net National Medical Director

PRO [Abundant] LIFE

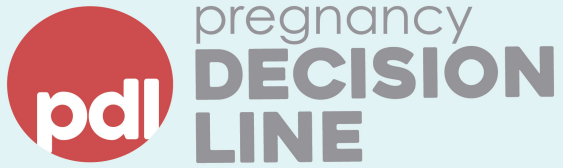

CARE NET'S VISION

Care Net envisions a culture where women and men faced with pregnancy decisions are transformed by the Gospel of Jesus Christ and empowered to choose life for their unborn children and abundant life for their families.

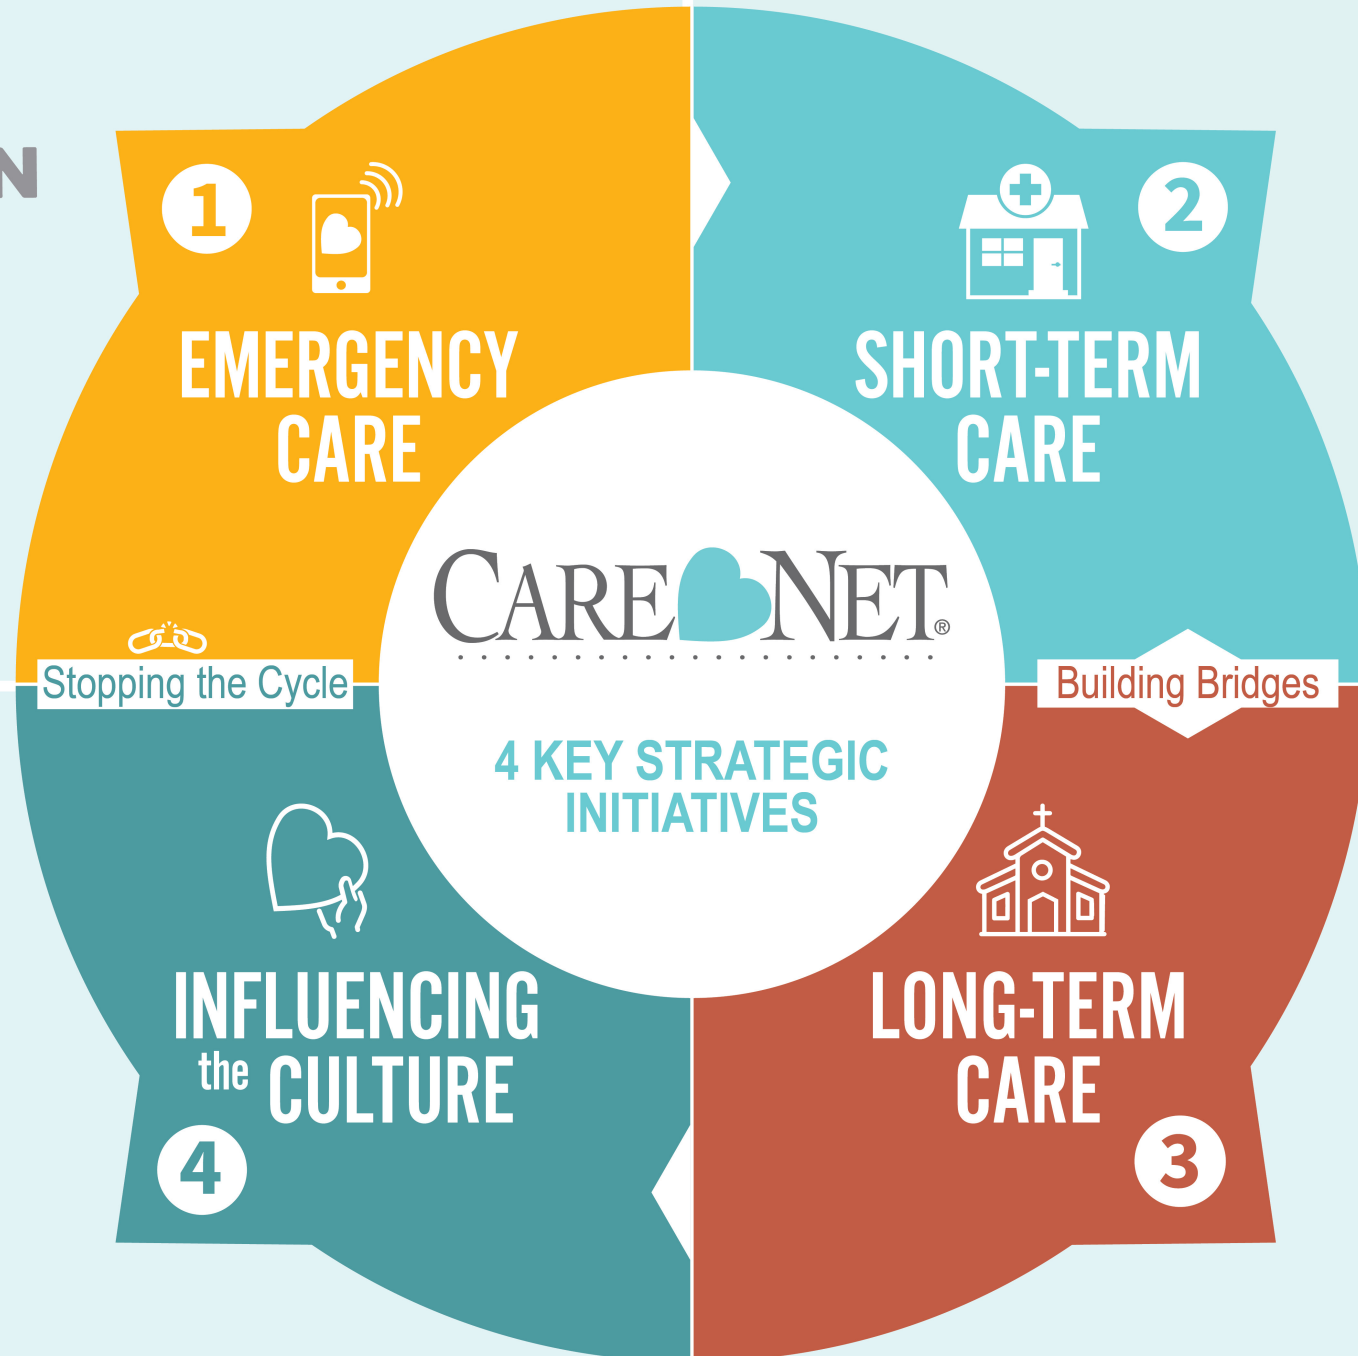

CARE NET'S MISSION

Acknowledging that every human life begins at conception and is worthy of protection, Care Net offers compassion, hope, and help to anyone considering abortion by presenting them with realistic alternatives and Christ-centered support through our life-affirming network of pregnancy centers, churches, organizations, and individuals.

RECLAIMING FATHERHOOD

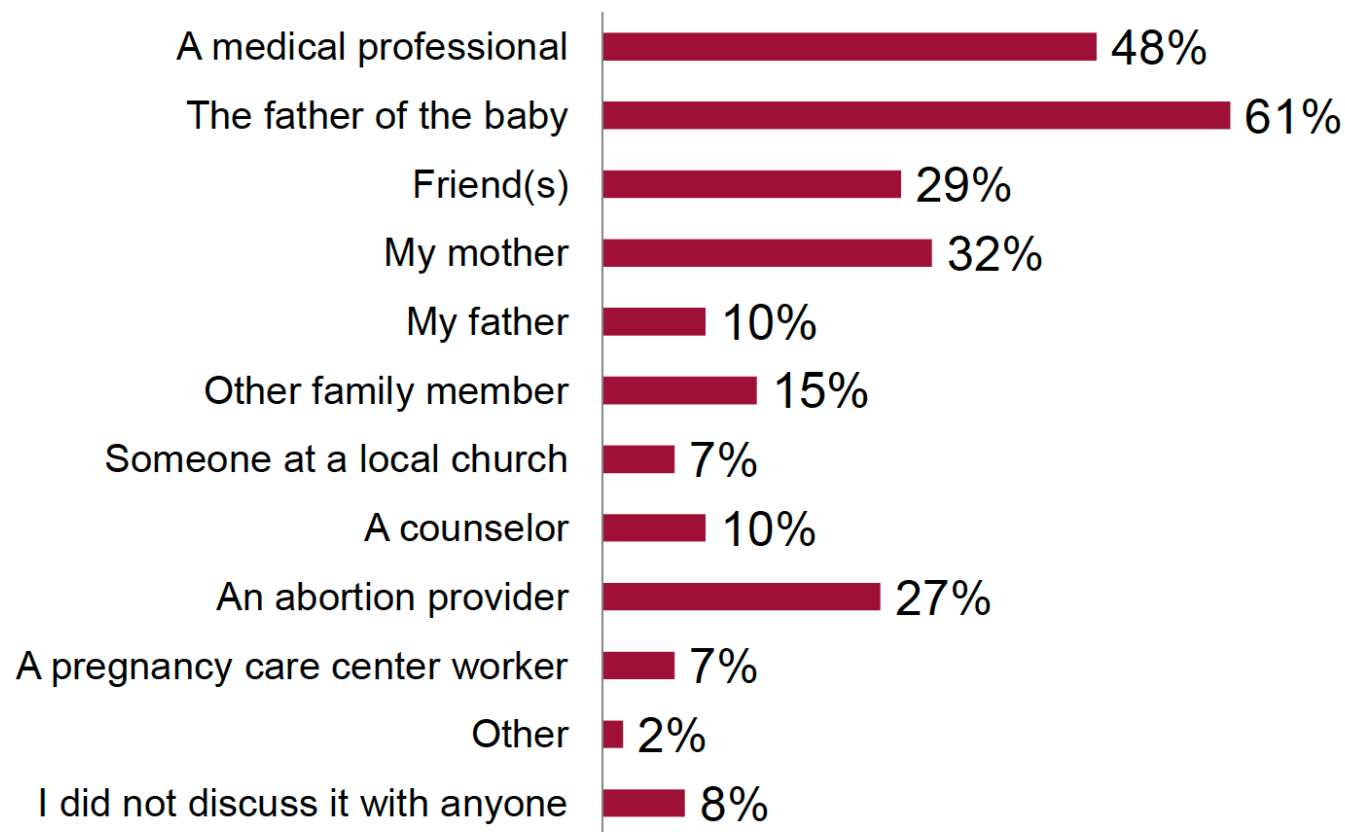

A Bible study for Men
Seeking Healing After
Abortion

36% of women were attending a Christian church once a month or more at the time of their first abortion

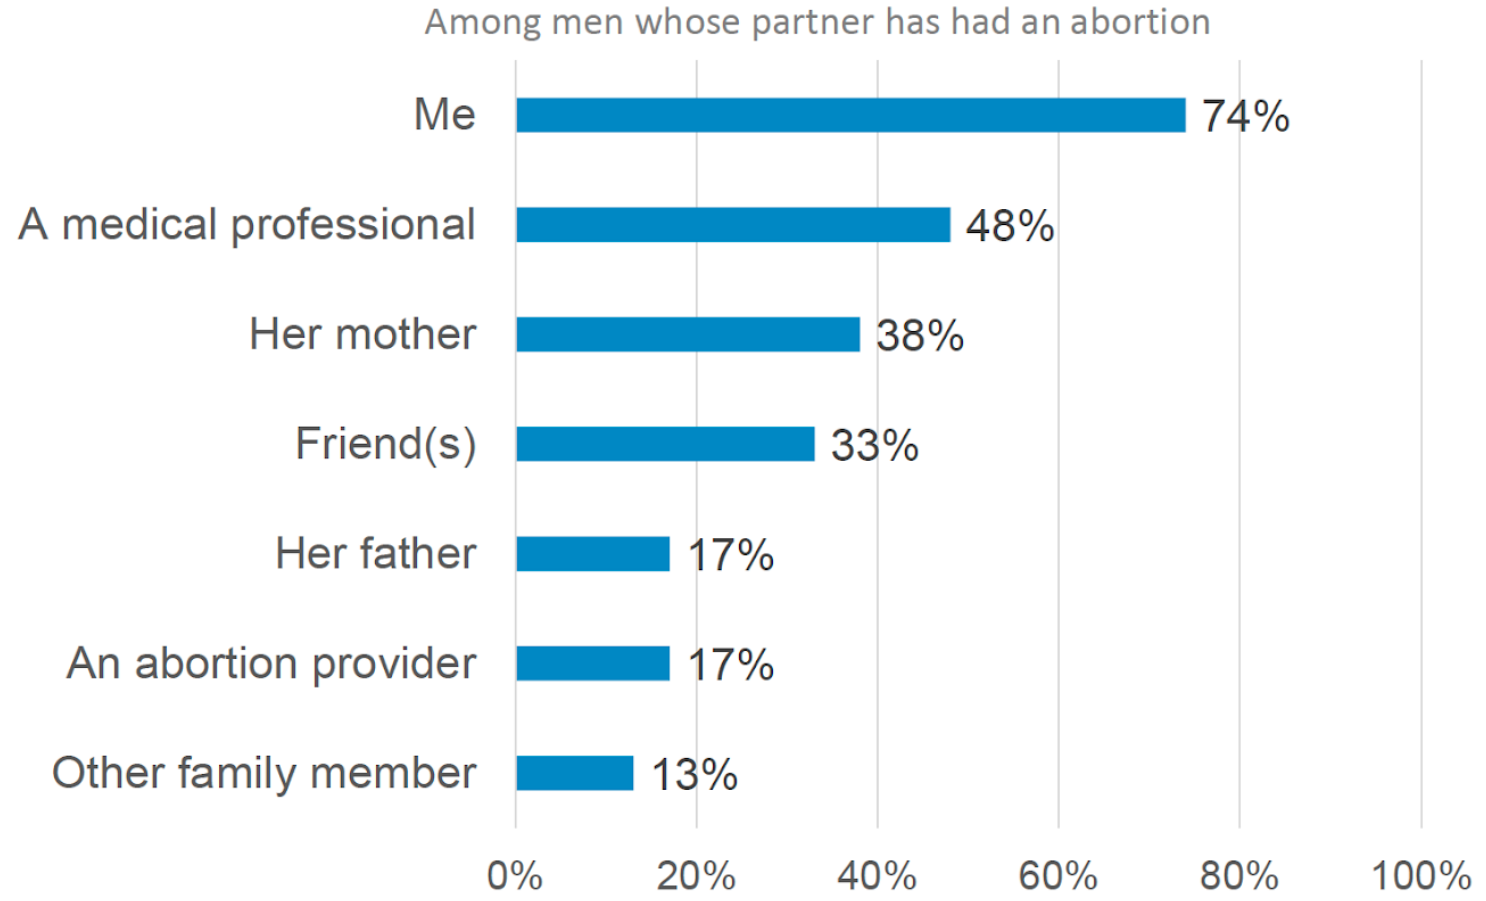

Women are most likely to discuss their decision to terminate their pregnancy with the father of the baby or a medical professional

Q: "With whom did you discuss this pregnancy termination/abortion decision? (Select all that apply)"

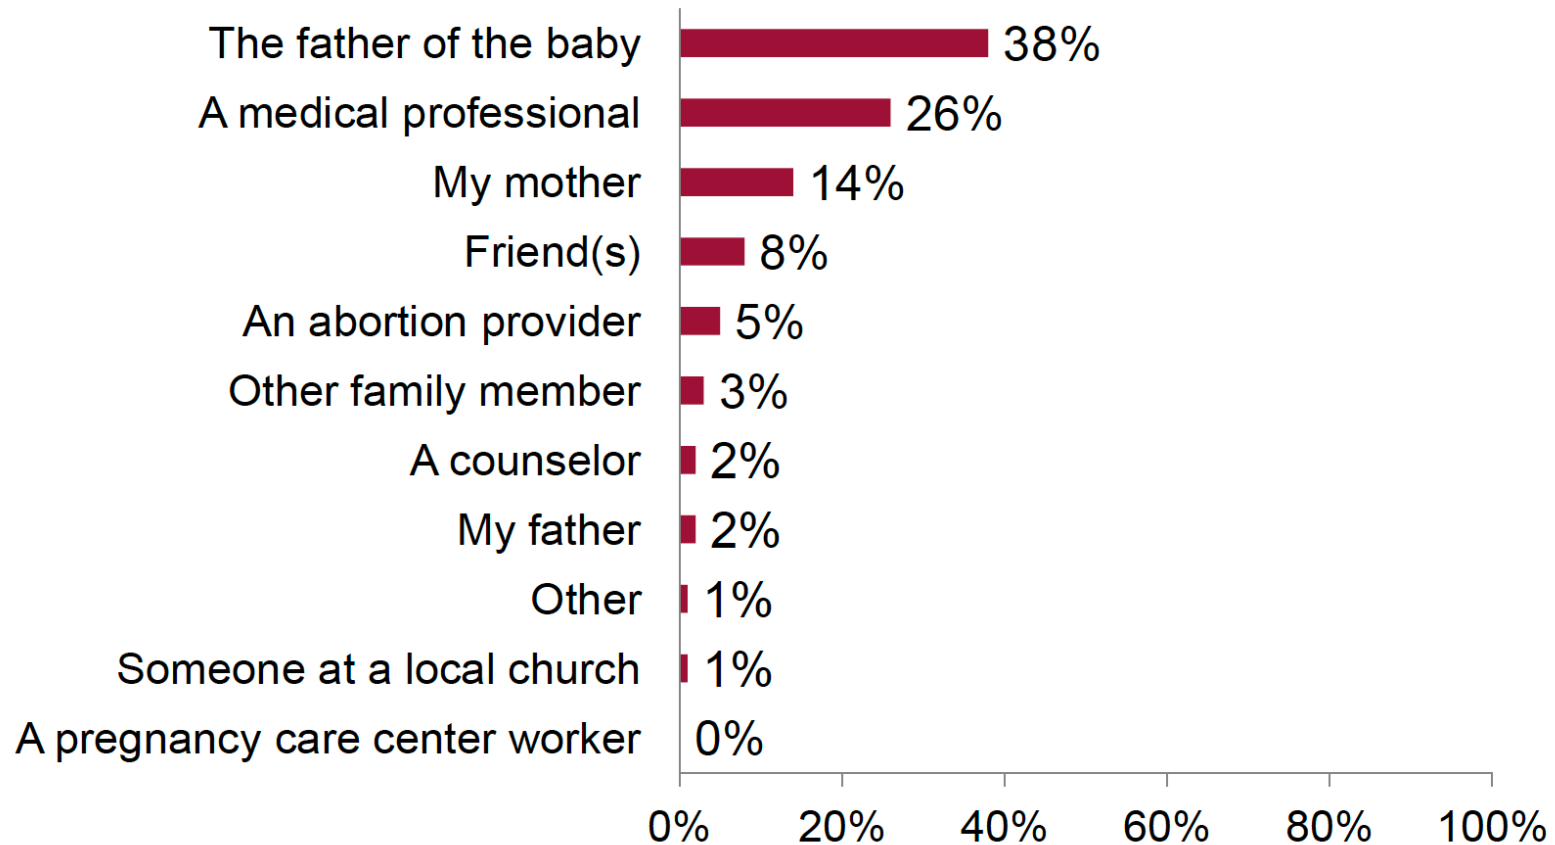

“To the best of your knowledge, with whom did she discuss this with prior to making the abortion decision?”

Lifeway research

Q12: “To the best of your knowledge, with whom did she discuss this with prior to making the abortion decision? Select all that apply” n=1,000

More than one-third (38%) of women indicate the father of the baby was most influential on their abortion decision

Q: "Which of these was most influential on your decision to terminate the pregnancy? (Select One)"

38% of men whose partner later has an abortion say that they were the most influential on her decision

Lifeway research

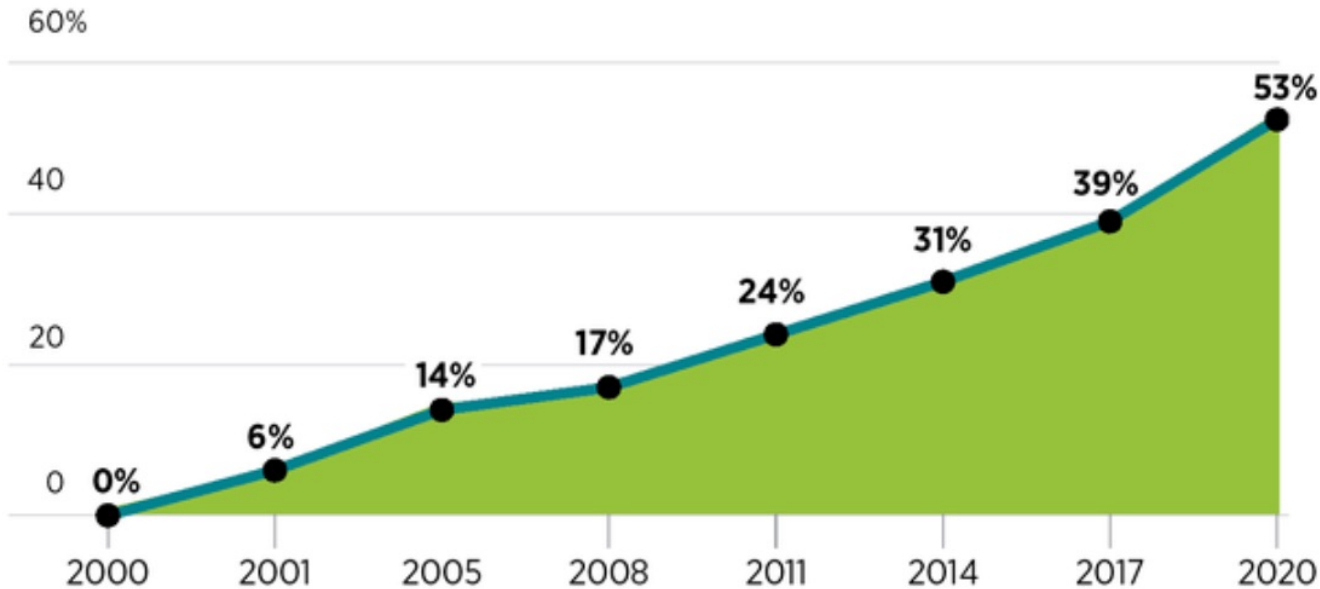

Q13: "To the best of your knowledge, which of these were most influential to her abortion decision? Select one" n=970

GUTTMACHER; MAJORITY OF ABORTIONS MEDICATION

GUTTMACHER INSTITUTE

As of 2020, medication abortions account for the majority of all US abortions

Medication abortion

- Abortion banned (13 states)

AMERICANS UNITED FOR LIFE

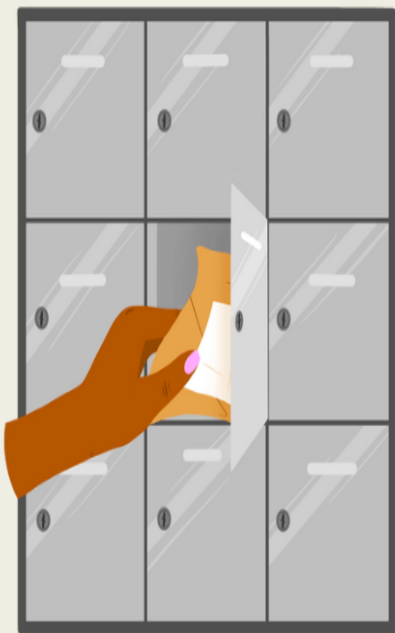

States in green protect life in nearly all circumstances.

This does not include states that have moved to protect Life but are blocked due to ongoing litigation.

Mail Forwarding:

Mail Forwarding

People who live in states with restrictive laws are still accessing at-home abortion pills by using creative options like mail forwarding services, driving across state borders, or using General Delivery addresses. Below you can read examples of how this has worked, then search for a provider in one of your neighboring states.

If you have legal questions about these routes of access, you can contact the free, confidential Repro Legal Helpline ([online](#) or at [844-868-2812](tel:844-868-2812)).

Telehealth Services

These services offer:

- Abortion pill delivery
- Basic medical screening (virtual)
- Follow up support from a clinician (virtual, may be optional)
- Check the provider's website for more information

MTP kit-Mifepristone and Misoprostol for Abortion

Model mtp

Condition New

Mifepristone and Misoprostol for safe Abortion

Now in Flavors ALSO

Why It Is Used

A medical abortion with mifepristone offers women an early-pregnancy abortion option that doesn't involve surgery.

A medical abortion is only done in the first 9 weeks of pregnancy.¹

- Second trimester: 30% risk of surgery

Training Videos advise: don't tell the doctor

Self-Managed Abortion| Lesson 7- Complication Signs during Abortion with Pills

from [HTUabortionpill](#)

If you do seek medical care, you do not need to say that you used medicines if you do not want to.

Abortion Pill Reversal

- Natural progesterone used safely
- Progesterone outcompetes mifepristone
- 65% of pregnancies given progesterone survive and go to full term.
- Without progesterone rescue treatment, the survival of a pregnancy exposed to mifepristone was only 10-23%.
