

Biography: Clint David

Environmental Chemistry, Inc.

Current Position

Vice President of Operations

Prior Experience and Education

Clint David is the current Vice President of Operations at Environmental Chemistry, Inc. (ECI), a commercial environmental testing laboratory in Houston, Texas. He has eleven years of experience in environmental analysis, with a focus in Organics. Under the guidance of Ms. Nan Thomey, he has served in supervisory roles at ECI since 2010, where he has been responsible for the recruiting, training, management, and leadership of several dozen laboratory analysts and support staff.

Mr. David has a B.S. from Sam Houston State University in Environmental Science.
