

Biography: Erin Darling
Water Quality Division
Texas Commission on Environmental Quality

Current Position

Erin Darling has worked as a Pretreatment Coordinator with the Pretreatment Team in the Water Quality Division since December 2017. Among her many duties, Erin specializes in Technically-Based Local Limits development reviews, and she is a member of the EPA Methods Update Rule Workgroup providing technical input from a pretreatment program perspective. Erin also continues to help streamline and improve the technological capabilities of the Wastewater Permitting Section.

Prior Experience and Education

Before joining the TCEQ, Dr. Darling earned a doctorate in Civil Engineering from the University of Texas at Austin where she previously received a Master's Degree in Environmental Engineering. As a graduate student, she investigated the impacts of building materials on indoor air quality and human health. With her passions for natural building techniques, energy efficiency, and indoor air quality, she is currently building an earthen tiny house with her husband and five-year-old son.
