

Accessibility Plans Examiner and Inspector

Course Outline

Course Description: This **8-module** course, followed by a 2.5 hour practice examination, is based on the *2018 International Building Code (IBC) and the 2009 ICC A117.1, Accessible and Usable Buildings and Facilities*. It teaches the practical application of ICC A117.1-09 and Chapter 11 and Appendix E of the IBC. Each module consists of an integrated video presentation, including presentation slides, explanation, examples, and review quizzes. Modules are designed to be 35 – 60 min. in length.

Course Objectives: This course is designed to prepare you for the *International Code Council's (ICC) Accessibility Inspector/Plans Examiner* exam, utilizing the *2018 IBC and ICC A117.1-09*. This course also serves as a review for those already familiar with the 2018 IBC and ICC A117.1-09 and may serve as an update course for those unfamiliar with older editions of the codes.

Texts and Readings: The *2018 International Building Code (IBC) and the 2009 ICC A117.1, Accessible and Usable Buildings and Facilities* are the textbooks for this course. It is highly recommended that you purchase a paper-back copy of this code, which is available online at www.iccsafe.org. A physical copy can be utilized during the actual exams, which are open book, and serves as a valuable reference for in the field inspections.

Accessibility Plans Examiner and Inspector

Quizzes and Exams: Each module associated with this course will be followed by an assessment quiz of varying length. A passing score of 75% is required in order to advance to the next module. At the conclusion of the course is a timed practice exam. The exam is similar in length, content, and duration as the actual ICC exams. A passing score of 75% is required in order to obtain a certificate of completion from WC3 for this course. Topics in both the exam and the quizzes may or may not have been covered in the video modules. A thorough reading of the code may be necessary in order to progress through this course.

Expectation of Participants: This course requires that you to watch each training video, complete each quiz, as well as the exam. You are expected to read portions of the applicable code, and become familiar with its layout and organization. We recommend 2 hrs. of personal study, for each module. Marking, tabbing, and highlighting in the code book is highly recommended. We have layout out a plan and method to help you learn the material, but it's up to you to put in the work necessary for you to mater the material. You can progress through this course at your own pace; however, you only have access for 120 days.

Continuing Education Credits: This course results in **1.15 CEU's** being provided by ICC, as West Coast Code Consultants is a Preferred Provider.

Instructors:

Todd Snider, PE, SE has over 12 years of plan review and structural engineering design experience. He has performed plan reviews for thousands of projects throughout the western United States. Todd is a licensed structural engineer, has a Master's degree in Structural Engineering, and maintains multiple ICC plans examiner certifications. Todd teaches code classes in several states.
