ASNT...CREATING A SAFER WORLD!®

ASNT | LEARN.

GROW YOUR KNOWLEDGE. GROW YOUR CAREER.

Replace Manual Processes,
Paper, and Excel with a
Digital Platform!

Nasrin Azari, President & CEO

Floodlight Software

► [asnt.org / learn](https://asnt.org/learn)

ASNT...CREATING A SAFER WORLD!®

Who I am

- President & CEO of Floodlight Software
- 15+ years corporate leadership
- 30+ years in IT/Software Engineering
- Using technology to improve operations
- Expertise:
 - Mobile Solutions
 - Physical IT Asset Management
 - Digital Transformation
 - Digital Workflow

What we're talking about today

- Overview of NDT processes
- Expected Benefits from Digitalization
- Examples of digital processes
 - Creating Jobs or Work Orders
 - Managing your Workforce Operations
 - Collecting data
 - Tracking Job Costs
 - Creating Reports

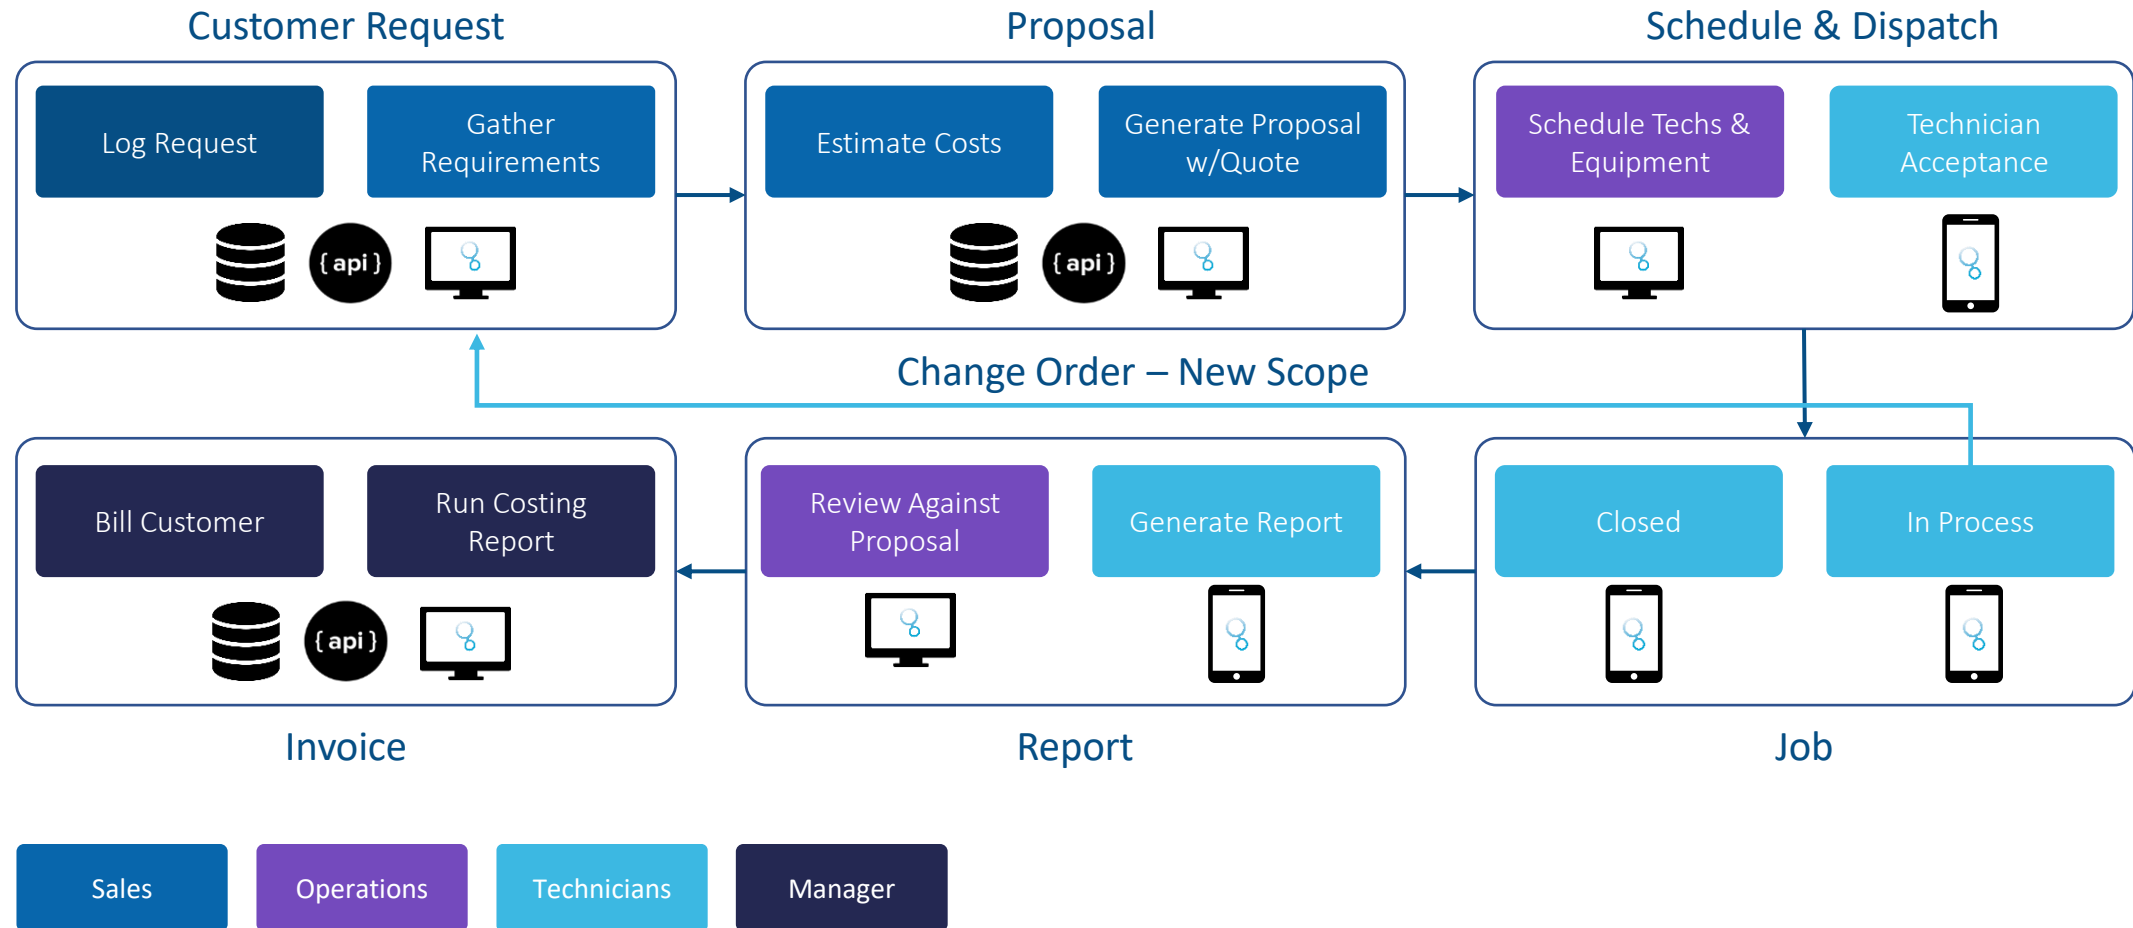

DISCLAIMER! I will be using Floodlight to demo scenarios!

POLL QUESTION 1

How mature is the digitalization of your business?

1. We are still working primarily from paper, white boards, and sticky notes!
2. Our business runs almost entirely on Excel
3. We use a hodge-podge of different tools that are not well integrated
4. We have a digital platform that we are using or currently implementing

NDT Processes

POLL QUESTION 2

How would you categorize your role in your NDT business?

1. Sales / Account Management / Customer Engagement
2. Operations / Scheduling / Dispatching
3. Field Technician / NDT specialist
4. Manager / Business owner

Benefits of Digitalizing your Processes

OPERATION

1

**Inspector
Management &
Utilization**

2

**Data capture
and collection**

3

**Data
Management**

4

**Reporting to
customers**

5

**Job Cost
calculating &
Billing**

BENEFITS

Dynamic
Scheduling; faster
response to
changes

Faster, more
accurate, easier
data collection

Trustworthy DB
that is searchable
in many ways

Real-time report
gen; Flexible
formatting

Accurate job
costing and
timely invoicing

5 Process Examples

1. Collecting customer requirements and creating a Job / Work Order
2. Managing technician skills and scheduling Jobs
3. Data Collection during a Job
4. Tracking Job Costs
5. Creating Output Reports

Example 1: Creating Jobs / Work Orders

Connect your customer contract to your Job or Work Order

Ensure that all agreed-upon services are included

Include cost and timeframe estimates

Replace your paper quotes, proposals, and job forms with digital versions

Example 4: Tracking Job Costs

- Pre-configure costs associated with various types of job resources:

Labor

Equipment

Consumables

Expenses

Travel

- When creating each job, select pre-configured resources
- Separate resource costs & rates and from usage to easily modify
- Support various rates: hourly rates, daily rates, fixed rates
- Track actual work performed

POLL QUESTION 3

Based on what I saw today, the most interesting digital use case for me / my business, is:

1. Collecting customer requirements and creating a Job / Work Order
2. Managing technician skills and scheduling Jobs
3. Data Collection during a Job
4. Tracking Job Costs
5. Creating Output Reports

Summary!

More Effective
Operations

More Value to
Customers

Digitalizing Processes Means:

1. Connecting data throughout your processes

2. Changes / updates flow through your system

3. Data entry controls minimize errors

4. Better auditing thru automatic time- and geo-stamping, as well as photos

5. Faster Customer communication / response
