

**Biography: Vickie Reat**  
Remediation Division  
Texas Commission on Environmental Quality

***Current Position***

Vickie is an ecological risk assessor providing review and comment on ecological risk assessments submitted for remediation sites.

***Prior Experience and Education***

Vickie has worked in a variety of areas since beginning her career at the agency in 1983. These include wastewater inspection, surface water monitoring, wastewater enforcement, and wastewater permitting and water quality areas. For about 17 years Vickie has worked supporting the remediation programs in the review of ecological risk assessments and water quality evaluations associated with superfund, voluntary cleanup, and corrective actions sites. Vickie led the multi-stakeholder workgroup that developed TRRP-15eco (*Determining Representative Concentrations of Chemicals of Concern for Ecological Receptors*). Vickie received her Bachelor of Science and Master of Science degrees in Biology and Aquatic Biology from Stephen F. Austin State University in 1980 and 1983, respectively.
