

## **Biography: Michael Ege**

Air Quality Division  
Texas Commission on Environmental Quality

### ***Current Position***

Michael is an Emissions Inventory Specialist in the Emissions Assessment Section (EAS) developing and reviewing area source (nonpoint) air emissions inventories, managing inventory improvement projects, and approving oil and gas emission estimation methodologies for air emissions inventory purposes.

### ***Prior Experience and Education***

Michael has worked in the EAS since 1998. Prior to joining the area source emissions inventory team, he worked as a point source emissions inventory quality assurance staff member. Michael is a graduate of Texas A&M University with a Bachelor of Science degree in Chemical Engineering with University and Foundation Honors. Michael is currently a co-chair of the National Oil and Gas Emissions Committee, a workgroup comprised of Environmental Protection Agency (EPA) staff, regional air quality organizations, and state and local experts who collaborate to improve the quality, completeness, and representativeness of oil and gas activities and related emissions.
