

Biography: Lyndon Poole, P.E.
Air Permits Division
Texas Commission on Environmental Quality

Current Position

Lyndon is a technical specialist for Team 1 of the New Source Review (NSR) Energy Section of the Air Permits Division. He conducts state and federal permit reviews, provides guidance to TCEQ staff and applicants, participates in public meetings, and assists on special projects regarding energy sources.

Prior Experience and Education

Lyndon received Bachelor of Science degrees in Education and Chemical Engineering from the University of Arkansas. He began working for the Texas Commission on Environmental Quality in March 2007 as a water district bond reviewer in the Water Supply Division. In 2012 he transferred to the Chemical NSR Section of the Air Permits Division, and to the Energy NSR Section in 2015. He became a technical specialist for Energy Team 1 in April 2022. Prior to joining TCEQ, Lyndon worked for the Railroad Commission of Texas, the Arkansas Division of Environmental Quality, and public schools in Texas and Arkansas. He is a licensed professional engineer in the State of Texas.
