

Biography: Sean Avitt, P.G.

**Groundwater Advisory Unit
Railroad Commission of Texas**

Current Position

Sean Avitt is a geoscientist in the Railroad Commission's Groundwater Advisory Unit, who provides groundwater protection recommendations for oil and gas well activities, including surface casing, plug and abandon, and injection.

Prior Experience and Education

Sean received a Bachelor of Science degree in Geological Sciences from the University of Texas in Austin in 2009. He continued work on his undergraduate honor's thesis before taking a position at the Texas Commission on Environmental Quality to work on the Barnett Shale Emissions Inventory in 2010. He then joined ATC Associates, Inc., where he performed environmental site assessments and remediation. In February 2012, Sean joined the Railroad Commission of Texas as a technical reviewer for surface waste disposal. In July 2015, he joined the Groundwater Advisory Unit in his current position.
