

Biography: Jaya Zyman, P.E
Permitting and Registration Support (PRS) Division
Texas Commission on Environmental Quality

Current Position

Jaya Zyman P.E., is currently the Director of the Permitting Registration and Support Division within the Office of Waste of the TCEQ.

Education and Prior Experience

Jaya is a board certified professional engineer in Texas with a BS degree in Biochemical Engineering and an MS degree in Environmental and Water Resources Engineering, from the University of Texas, Austin, TX.

Jaya joined the TCEQ in 2009 after 23 years of working in the private sector in a variety of multimedia projects as a consultant with multi-national environmental engineering firms. She first joined the Water Quality Division as the team leader for the Storm Water and Pretreatment Team and was quickly promoted to Assistant Division Director of the Water Quality Division where she oversaw division projects related to wastewater permitting, sludge and water quality assessments.

In February of 2015 she became the Director of the Permitting and Registration Support Division where she directs the Registration and Reporting and the Occupational Licensing Sections.
