

## **Biography: Brian Sierant**

Biosolids Team  
Water Quality Division  
Texas Commission on Environmental Quality

### ***Current Position***

Biosolids Program Work Leader for the Water Quality Assessment Section.

### ***Education and Prior Experience***

Brian Sierant received his Bachelor of Science degree in Environmental Resource Studies from Texas State University in 2000. He joined the TCEQ in March 2001 as a Permit Coordinator for the Water Quality Division in the Central Office in Austin.

As a Permit Coordinator and Work Leader for the Water Quality Division, his tenure at the agency has been focused on the processing and land application domestic biosolids and water treatment plant residuals and closure guidance of municipal wastewater treatment facilities. Those duties include reviewing applications and drafting permits in accordance with state and federal regulations, representing the agency at public meetings and contested case hearings, participating in rulemaking procedures, and providing technical advice to, and interacting with federal, state and local governments, industry representatives, the general public, the Texas legislature, and other programs within the agency.
