

Mariama Mitchell

Environmental Protection Specialist, U.S. Environmental Protection Agency (EPA) Region 6

Ms. Mitchell works as a Regional Grants Coordinator and currently serves as Co-Chair for the Binational Fund Committee. Mariama currently serves as a Senior Project Officer for the Office of Air and Radiation. Ms. Mitchell oversees and manages grants for several State, Local and Non-profit agencies at EPA, Region 6. Ms. Mitchell started her career at EPA 22 years ago in the Office of Water after completing a co-op through EPA's Student Career Experience Program (SCEP), where she served as a Project Officer Assistant. While working in the Water Quality Division, Mariama served as Wetlands Coordinator and worked on the Water Tribal team for 13 years. Ms. Mitchell's dedication and hard work has been invaluable in her current role.

Ms. Mitchell has had the opportunity to do research with fellow EPA colleagues on Field measurements of Dissolved Oxygen in the Gulf of Mexico on board of EPA's vessel, R/V Lake Guardian. She has volunteered to present at Region 6 Earth day celebrations and tutor at elementary schools through EPA's community outreach tutoring programs with other EPA staff. Ms. Mitchell was born in Akron, Ohio and raised in Wichita Falls, TX. Ms. Mitchell holds a Bachelor of Science Degree in Agriculture Business from Langston University, where she worked for the School of Agriculture as an Office Student assistant. Ms. Mitchell currently resides in Texas with her family.
