

Biography: Michael B. Pfeil

Water Quality Division
Texas Commission on Environmental Quality

Current Position

Michael Pfeil serves as the Whole Effluent Toxicity (WET) Coordinator for the Standards Implementation Team. He has been in the WET program since 1992. As part of the WET program, he recommends WET testing requirements for permits, provides WET language to permit writers, and provides a WET testing history for permit fact sheets. In addition, as the WET coordinator, he assists in drafting the WET section for the Texas Surface Water Quality Implementation Procedures (IPs) and coordinates with EPA on evolving WET requirements and issues.

Education and Prior Experience

Mr. Pfeil graduated from the State University New York College at Buffalo with a Bachelor of Arts in biology and from the University of Texas at Dallas with a Master of Science in environmental science. Michael began working for the Texas Water Commission in 1989 as a wastewater treatment plant inspector in the Houston regional office.
