

Biography: Umair Hassan

Waste Permits Division
Texas Commission on Environmental Quality

Current Position

Umair is an Environmental Permit Specialist in the Industrial and Hazardous Waste (IHW) Permits Section.

Prior Experience and Education

Umair graduated from University of Houston with a B.S. in Chemical Engineering. He started his career with TCEQ in 2020 and serves as a Project Manager reviewing permit applications, reports and other submittals for waste management. He has previously worked as an intern at an Air Conditioning and Heating Systems manufacturing plant. He has also worked as a research intern with Rice University and performed research on the synthesis of gold nanoparticles.
