

Biography: Lillian Hayes
Air Permits Division
Texas Commission on Environmental Quality

Current Position

Lillian is a Natural Resource Specialist III for the Rule Registrations Section.

Prior Experience and Education

Lillian received her degree in Geography/Natural Resource and Energy Management from the University of Texas at Austin. During her time at UT Austin, she had the privilege of conducting climate research in Botswana, Africa and Australia. In addition, she worked for UT Austin's Landscape Services where she restructured the compliance requirements of the Tree Preservation and Protection section of the UT Austin Tree Care Plan. In the summer of 2015, Lillian began work doing research, geocoding, and GIS for UT Austin's Innovations for Peace and Development Department. Upon graduation, Lillian joined the Texas Commission on Environmental Quality as a natural resource specialist. In her current position, Lillian is responsible for reviewing permit by rule and standard permit applications for the Rule Registrations Section.
