

Biography: Andrew Sullivan

Water Quality Planning Division
Texas Commission on Environmental Quality

Current Position

Andrew is the Surface Water Quality Monitoring Program Team Leader responsible for the oversight and management of the statewide water quality monitoring network. He is also responsible for compiling and drafting the assessment of water quality for the development of the Integrated Report for Clean Water Act Sections 305(b) and 303(d).

Prior Experience and Education

Andrew Sullivan has 27 years of state service within the water quality management programs with the TCEQ. He has worked with the Water Quality Standards Program, implementing and developing water quality standards. In 2001 he began working with the TMDL program as a project manager addressing water quality impairments and overseeing water quality assessment projects. In 2008, he started work as the Team Leader for the Surface Water Quality Monitoring Program. He received a BA in Biology from the University of Delaware and an MS in Wildlife and Fisheries from Louisiana State University.
