

Our Path suite of products delivers online courses and content anytime, anywhere.

Maximize Your Message with Path LMS™

Our award-winning, powerful cloud-based solution to educational content management, designed specifically for lecture-based learning and unlocking additional opportunities from spoken word content.

Unlimited Storage

Never worry about data overages. Cloud-based technology lets you store an unlimited amount of rich media for no additional fees.

Mobile Optimized

Content is optimized to display on any device, enabling administrators and audiences to access Path LMS™ at any time from any Web-enabled device.

eCommerce

Sell your content using the secure built-in shopping cart that easily integrates with other third-party payment gateways. Control your offerings with coupon codes and group pricing options.

Assessments + Certification

Assess your audience's aptitude by designing your own tests to evaluate learners. Issue custom branded certificates as learners complete courses.

Live Event Registration

Simple registration for upcoming webinars, hybrid events and live webcasts. Add descriptions, speaker bios, photos and resources.

SCORM

From a high-level dashboard to robust detailed reports – access the tools needed to quickly gauge content and user activity.

Instructor-led Assignments

Add assignments to any course by leveraging our instructor-led assignment and feedback tool. Create assignments, receive responses and provide feedback.

Detailed Reporting

Accurately evaluate audience engagement and audit the effectiveness of your content with detailed reporting features that inform your decision making.

Path eREG™

Secure, Streamlined Event Registration

For organizations who use our live virtual event services or host their own webinars and on-demand content, Path eReg™ is a simple solution to securely register audience members to access online events and content.

Robust Reporting

Track audience engagement and identify additional marketing opportunities with a detailed look at your event & content performance.

eCommerce

Rely on our secure eCommerce tools to handle registration fees. Group pricing, package options and customizable coupon codes come standard with Path™ eReg.

Seamless Integration

Fuse Path eReg™ with your current customer management system to share information in real time and create a clearer picture of audience engagement.

Customized Branding

Brand your event registration portal with your own identity to create a smooth single-step sign-in experience for your audience.

Path eLIBRARY™

Empower your Content to Create Revenue

Path eLibrary™ is a dynamic revenue-generating software engine for professional associations, extended enterprise and other organizations who want to sell content, increase membership or otherwise accelerate growth. Leverage your valuable content by hosting your high quality videos in a robust, searchable library that features sponsor advertising.

Searchable Content

Enable your audience to follow their own path through your library. Enter metadata and search tag information to quickly connect your viewers to the right content.

Marketing Opportunities

Connect Path eLibrary™ to your other customer management solutions and databases to identify viewers most likely to respond to additional marketing tactics.

Customized Branding

Brand your content library with your own identity or incorporate your sponsor's branding into the look and feel of your user interface.
