

Dr. Steve Gibson
Quality Assurance Team
Texas Commission on Environmental Quality

Steve Gibson is the senior technical auditor for TCEQ's laboratory accreditation program. He formerly served as team leader for the Quality Assurance Team in TCEQ's Monitoring Division and as the Texas representative on the Accreditation Council of the National Environmental Laboratory Accreditation Program (NELAP). Steve served for eight years on the Proficiency Testing Executive Committee for The NELAC Institute (TNI).

Steve has a B.A. degree in Chemistry from Shippensburg State College (Pennsylvania) and M.S. and Ph.D. degrees in Analytical Chemistry from Iowa State University.

Upon completion of his graduate studies, Steve took a position with Radian Corporation in Austin, Texas. He managed various laboratory areas in Radian's in-house environmental laboratory during 17 years at Radian. Following one year service at the Texas Health Department performing audits related to controlling toxic substances, Steve joined TCEQ in 1998. He has performed accreditation and quality systems audits at federal, state, municipal, academic, and commercial laboratories providing regulatory and ambient monitoring data directly and indirectly to TCEQ.
