

### Just Like Popular Real Estate Sites!

# What is Senioridy?

We are an interactive, **online** Senior Living **Directory**.

We are **not a referral company** and make no money from referrals.

We do not interfere with the resident's choice and we do not make recommendations to the residents.

When residents call the facility numbers listed on the website they are calling your facility **DIRECTLY**.

chments Hap Contact Facility

# Finding You Faster...

We give seniors, and their loved ones, the tools they need to make a **quicker**, **more informed** decision.

By the time they **walk through your door** they may already know everything they need to make a quick decision...

By locating a community in an area close to a support network, seniors and their families can feel more confident about a selection they can make collectively.

### vith fun!

## Map Layout

### Map UPDATES AS YOU MOVE IT

Map markers will update as you scroll through the map, zoom in and out, or change locations. Markers will produce popup information and highlight the selected facility to indicate which facility belongs to the selected marker.

# A Mobile Experience

Tap on any marker to view the facility info including name, phone number, address, and what general area it is located in.

Phone numbers turn into auto-tap, no-dial, click-to-call links so prospects can get in touch with each facility directly and quickly.

Prospects can click on the facility title to view detailed information about the facility including insurances accepted, facility amenities, and images.

Although visitors do no need to register on the site, if they do register they can create lists, save facilities to those lists and share lists with others.

### What's Next?

Planning for a successful future....

Chances are that you already have a free Basic listing on Senioridy. However, it's very likely that you are not showing off your very best features. While Basic listings can help prospective residents locate you, and even call you directly, they lack the features that would help a prospect make an informed decision. Features like Full Size Galleries, detailed facility information, and financial considerations (like your starting price) can really make your listing compare well against the other listings, especially against the other Featured Listings.

Don't Wait...call us today to get your listing Featured!

### Did I mention the low price???

\$100 a month NO REFERRAL FEES EVER!! Residents call you directly We don't send their info to your competitors You can view your page traffic just by looking at your page
